

MANJOT SINGH

Technical Support Executive | IT Support | Cybersecurity / SOC Aspirant

mssmart6@gmail.com | +91 8826169020 | GitHub: ManjotSingh06 | India

PROFESSIONAL SUMMARY

Technical Support Executive with a B.Tech background in Computer Science and hands-on experience across IT troubleshooting, Python, web development, databases, automation and AI/ML. Interested in transitioning toward cybersecurity and SOC roles, with a focus on Linux, networking, security monitoring, incident triage, scripting and practical security projects. Strong foundation in troubleshooting, APIs, cloud/deployment and automation, with a continuous-learning mindset.

CURRENT EXPERIENCE

Technical Support Executive — D3 Mynds Business Solutions Pvt. Ltd.

Current role | India

- Provide technical support and troubleshoot application, system and user-facing issues.
- Apply structured problem-solving, issue isolation, documentation and escalation practices.
- Building toward security-focused responsibilities through networking, Linux, logs, monitoring and scripting.

EDUCATION

B.Tech — Computer Science & Information Technology | Dronacharya Group of Institution | 2022–2026

12th — KIIT World School | 2022 10th — KIIT World School | 2020

TECHNICAL SKILLS

IT / Security	Technical Support, Troubleshooting, Networking fundamentals, Linux fundamentals, Windows, Wireshark, Packet Tracer, SQL
Programming	Python, JavaScript, HTML, CSS
Development	React, Node.js, Flask, Django, FastAPI, REST APIs
Data / DB	MySQL, MongoDB, PostgreSQL/NeonDB, Pandas, NumPy
AI / Automation	LangChain, LangGraph, CrewAI, n8n, LLM APIs, RAG / automation concepts
Cloud / Tools	Git/GitHub, Docker, AWS fundamentals, Streamlit, Render, Vercel

SELECTED PROJECTS

W-Safe — Safety Alert & Community Platform

React, Node.js, MongoDB, Socket.io, Leaflet | Built a safety platform with authentication, protected routes, SOS reporting, real-time community updates, live location sharing, maps, safe/danger zones and an admin dashboard.

SkillConnect — Skill Matching Platform

React/Node.js ecosystem | Developed profile management, connection requests, JWT authentication and real-time one-to-one chat using Socket.io for a skill-matching platform.

Django Library Management System

Django, Python, NeonDB, Bootstrap, Render | Implemented authentication, role-based access, borrowing/return workflows, inventory tracking and CRUD modules; deployed to the cloud.

AI Resume Screening & Candidate Scoring Automation

n8n, Groq API, Webhooks, MongoDB, REST APIs | Built an automated workflow to extract resume data into structured JSON and support candidate categorization.

Customer Support Agent

Python, LangGraph, LangChain, Groq API | Built a graph-based chatbot to orchestrate customer-support dialogue flows and user intents.

INTERNSHIP & TRAINING

Machine Learning Intern — Prodigy InfoTech | 1 Jul 2024 – 2 Aug 2024

Worked on four machine-learning projects covering foundational and advanced ML concepts.

Generative AI Workshop — EDUTECH LIFE, IIT Delhi

Hands-on exposure to Generative AI / LLM concepts; followed by LangChain/LangGraph automation projects.

CERTIFICATIONS / LEARNING

AWS Cloud Practitioner Essentials | Generative AI Skills for Data Analytics — IBM | Fundamentals of Data Structures in C — Simplilearn | AI/ML with Data Science — EDUTECH LIFE
